Someone you know is in a bit of a mood. Irritable, moody, and plain unpleasant to be around -- she's got PMS. Unfortunately, many women don't even realize that it's happening. They may even attribute their mood to something that you did (or didn't do). Never fear. The Botanical Engineers at FTD Labs have developed a special bouquet just for this occasion. More than just flowers, the PMS Bouquet has been designed to reduce the symptoms of PMS. Get her one every month!
