

Y10K IS COMING

WE'RE READY, ARE YOU?

You've fixed your Y2K problems, but don't think it's time to rest on your laurels. **The year 10000 will be here sooner than you think.** Will your systems be ready? Can they handle a five digit date, or will they think it's the Year Zero? **Are you really ready to risk that?** At Andersun, Coppers, Keene and Company, we have the people, the plans, and the programmers to whip your systems into Y10K compliance. **Don't delay.** The clock is ticking. Can't you hear it? Tick. Tick. Tick. Y10K just got a few seconds closer. Tick. Tick. Tick.
